

Dear students,

We have already completed ch-5,7,8,1 and in class 8 more two chapters, 4 & 6.

On 5.5.20 I have started ch- 9 weathering & completed processes of physical weathering.

Today I have discussed factors of physical weathering, and processes of chemical & biological weathering, and also the effects of weathering.

H/w

Differentiates the following:-

1. Physical & chemical weathering
2. Physical & biological weathering
3. Oxydation & carbonation

Ans the following:-

- 1.How plant act as a agent of biological weathering.
- 2.Discuss the role of human in biological weathering.
- 3.state three constructive effects of weathering.

I will upload the notes of "process of physical wethering".Please follow that.

Thank you

Debosmita Banerjee.
